Use Butterflies as Food.

Butterflies, which are very prolific in Australia, are suffocated in millions by the aborigines and separated from their wings, pressed into cakes and eaten.

Two Fatalities.

The freight train caused the explosion by hitting a truck loaded with acetylene tanks. The truck and driver was killed.—Buffalo News.

Catarhal Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure Catarhal Deafness, and that is by a constitutional remedy. HALL'S CATARRH MEDICINE acts through the Blood on the Mucous Surfaces of the System. Catarhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing may be destroyed forever. Many cases of Deafness are caused by Catarrh, which is an inflamed condition of the Mucous Surfaces.
